INSTRUCTIONS FOR CLEANING CRATES

1. Get dirty crates from the wooden pallet across from the Seabird Building
2. Refresh the bucket of water at the beginning of a new round of washing crates.
3. Spray all sides of the crate with water.
4. Scrub any dirt or fecal matter on the crate with fresh water and a brush.
5. Spray all sides of the crate with a thin layer of Rescue.
   a. Screw the nozzle that matches the Rescue sprayer on to the hose.
   b. Pull back the black ring on the nozzle and connect the sprayer.
6. Let the Rescue sit on the crate for 10 minutes.
7. Rinse the Rescue off with water.
8. Let the crates dry in the sun before putting them away on the wooden pallet next to the Food Shed. Stack them on the wooden pallet with large crates in the back and small crates in the front.
