So you found a baby songbird... now what?

Was it picked up by a cat, dog, or other predator?

- **YES**
  - Call the Santa Barbara Wildlife Care Network
  - (805) 681-1080

- **NO**
  - Is it injured?
    - **NO**
      - Does it have feathers?
        - **YES**
          - This bird is a **FLEDGLING**
        - **NO**
          - This bird is a **NESTLING**
    - **YES**
      - Can you see the nest?
        - **YES**
          - Is the parent still active near the nest?
            - **YES**
              - Move the bird to safety outside (under a hedge)
            - **NO**
              - Leave the bird alone
        - **NO**
          - Place the bird back in the nest (Don't worry, parents will still take care of it!)

Still unsure?
